ABOUT ME

I am a passionate designer who creates designs that are functional, meaningful, and beautiful. I always try to simplify the relationship between people and the interactive products while also always taking into consideration the business goals and technological constraints. I believe that small interactions can make a big difference in people's lives.

EXPERIENCE

Haltrip • UX Designer

Dhaka, Bangladesh • Feb 2019 – **Present**

- My role here is to convert the rough ideas into a finished digital product. My tasks include delivering high performing and user-focused landing pages for our B2B clients where they will sell the tickets. Also, designing some internal new products.
- Design travel ecosystem

Global Citizens HQ • Product Designer (Remote)

Jacksonville, Florida • Jul 2017 – **Present**

- Designed web, dashboards, mobile apps projects of Real Estate.
- Created wireframes, user flows, and sitemaps to effectively communicate interaction and design ideas
- Managed complex data sets in easily comprehensible ways.

Pathao • UI Designer

Dhaka, Bangladesh • Jun 2017 – Feb 2019

- Designed a dynamic app-based platform that provides on- demand transportation, food delivery, logistics, and payment services
- Participated in design sprints and jam sessions for ideation, prototyping, and testing ideas with specifically targeted users
- Redesigned the company's website by redefining navigation, information architecture, and content. Decreased page abandonment rate by 23% and generate new leads with higher web engagement.
- Responsible for user research, information architecture, prototyping and visual design all the internal dashboard.
- Created and maintained a design system and style guide for rolling out higher quality, more consistent UIs faster
- Developed the visual design assets for a framework-agnostic UI pattern library
- Facilitated the development or improvement of design procedures, standards, and guidelines

JoomShaper • UI/UX Designer

Dhaka, Bangladesh • March 2016 – May 2017

- Collaborated with designers and engineers to build a component library, information architecture, and process flow for a scalable and flexible system.
- Responsible for user research, information architecture, prototyping and visual design Wordpress theme and Joomla template design.
- Designed and prototyped a responsive web application “ SP PAGE BUILDER” It's #1 Drag & Drop Joomla Site Builder.

Freelancing • UI/UX Designer

Dhaka, Bangladesh • May 2013 - **Present**

- Have completed over 100+ projects with 99% clients satisfaction as a freelance UI/UX designer.
- Determined to provide usable product designs with a commitment to quality. Specialized in UX design for mobile and web with 4 years of experience. Fluent with prototyping, user interface design, content strategy, user research and usability testing. See less
- Worked both on the web platform and the mobile application
- Defined visual & product elements, and the overall design
